

## candy and the king

<ul> <li>coding</li> <li>custom built code</li> <li>clean and beautifully designed</li> <li>responsive (made for mobile, tablet, laptop, desktop)</li> <li>easy to navigate</li> <li>downloadable menu</li> </ul>	<u>\$500</u>
<ul> <li>seo (search engine optimisation)</li> <li>built into the head</li> <li>meta tags</li> <li>links</li> </ul>	<u>free</u>
<ul><li>english proofreading</li><li>checking grammar</li><li>spelling</li><li>punctuation</li></ul>	<u>free</u>
website hosting per year - free unique URL name	<u>\$199</u>  total \$699

If you'd like a gallery page that can be included for \$250, but personally I think we can add that in later as there will be a few pictures on your website already.

I do want to suggest adding an Instagram plug-in that will send all your most recent photos to your website. This plug-in costs \$19 and can be used as a gallery in the meantime. This is what we use as a gallery on our own website.

We really hope you're happy with our proposal, because we LOVE your brand. We truly believe in your vision, and want to be a part of it.
